RE: AT&T Notification of Visual Impact Survey with Balloon Test on February 13, 2021 for AT&T's proposed wireless telecommunications facility at 6400 Old Centreville Road, Centreville, Virginia 20121.

Dear Property Owner or Interested Person:

New Cingular Wireless PCS, LLC, which does business as AT&T Mobility, LLC ("AT&T") is excited about an opportunity to add and improve wireless services to the Centreville area. In conjunction with the Centreville United Methodist Church, AT&T is proposing a new stealth telecommunications facility at 6400 Old Centreville Road, Centreville, Virginia 20121 (the "Property").

This letter is to notify you that AT&T has filed an application for a special exception with the Fairfax County Department of Planning & Development to construct the new telecommunications facility. The proposed facility includes a stealth 88' tall bell tower adjacent to the church, within a 20' x 80', 5" compound surrounded by an 11' screen wall that will blend in with the existing church building. The new facility will allow AT&T and at least two additional wireless carriers to provide emergency and non-emergency wireless services to residents, visitors, and businesses in the area.

AT&T originally held a visual impact survey of the stealth 88' tall bell tower on January 9, 2021. AT&T will conduct a second visual impact survey by conducting a balloon test from 12:00pm to 4:00pm on February 13, 2021, with an inclement weather date of February 20, 2021 (also from 12:00pm to 4:00pm). AT&T will fly a large balloon at the proposed location at a height of 88' and survey the visibility of the balloon from numerous vantage points in the surrounding area. It will also provide an opportunity for community members to view the height and location of the proposed bell tower.

AT&T has already conducted a virtual community meeting for this site. However, if you have any additional questions or comments regarding the proposed facility, please contact me at Douglas.Sampson@saul.com.

Sincerely,

Douglas Sampson
