Enhanced Public Transportation Corridor-Major public transportation facility (such as Metrorail, light rail, bus rapid transit, and high occupancy vehicle lanes) will be provided in this corridor based upon the results of a comprehensive alternative analysis. Final location of component facilities (e.g., rail stations, commuter parking lots) are subject to completion of the area plans or appropriate studies.

Notes:

1. Right-of-way requirements are shown in the comprehensive plan text.
2. Final alignment subject to completion of appropriate engineering studies.
3. All roads without lane designations are subject to safety and geometric improvements, as long as such improvements do not result in an increase in the number of through traffic lanes and are within existing rights-of-way. Should improvements require additional rights-of-way, there would be a public information meeting and/or public hearing as required.
